

Learning Outcome 1

Children have a strong sense of identity

Ways to identify Learning Outcome 1 in the program and routine

Build self help skills

Children try new things

Children take some control over their world through decision making and choice

Role modelling of supportive social interactions

Long blocks of play to allow children to explore

Children transition smoothly into care

Children show an understanding of how things in their world work

Children are willing to learn new things

Children keep trying and don't give up

Create a sense of belonging

Children show an awareness of others

Children express feelings

Get down to the child's level and be supportive

Children have a secure and trusting base to return to
